TECHNICAL SKILLS

Programming/libraries:	ASP.NET Core MVC, ADO.Net, C#, HTML, CSS3, SCSS, Bootstrap4, JSON PHP, JavaScript, JQuery, AJAX, Node Js, Express JS, Knockout JS, React JS
Databases/ API's :	NoSQL: MongoDB, Microsoft SQL Server, MySQL, Postgresql, RESTful API's
Operating Systems:	Windows, Mac
Reporting Tools:	JIRA, Git, GitHub, Terminal, Chrome, Stack Overflow, Slack, Zoom
Software Tools:	Cloud9, Sublime Text, GoormIDE, TFS (Version control), MS Visual Studio, Visual Studio Code, MS SQL Server 2008/2014, XAMPP Server, Mockaroo
Cloud Technologies:	AWS:(EC2, IAM, S3), Heroku, AZURE

EXPERIENCE

JUL 2019 - PRESENT

ONLINE WORKSHOP - Web Developer Bootcamp

- Create Responsive Modern Portfolio using SASS/SCSS, CSS3, HTML5
 - 1) <https://sangita05.github.io/SangitaPortfolio/> [Responsive Modern Portfolio]
- Create Blog using CSS3/HTML5, Bootstrap4
 - 1) <https://sangita05.github.io/Brandband.github.io/> [Brandband Website]
 - 2) <https://sangita05.github.io/mokacafe.github.io/> [Moca cafe Animation]
 - 3) <https://sangita05.github.io/NZwebsite.github.io/> [NZ-Tourist places Website]
- Create a car animation game
 - 1) <https://sangita05.github.io/RoadAnimationGame.github.io/> [Road Animation game]
 - 2) <https://sangita05.github.io/API.github.io/> [API Animation]
- Build Museum of Candy Project and Pattern Blog using Bootstrap4 -
 - 1) <https://sangita05.github.io/MuseumOfCandy.github.io/> [MuseumOfCandy WebPage]
 - 2) <https://sangita05.github.io/Pattern.github.io/> [Pattern Blog]
- Creating a To-Do List project using Javascript and JQuery -
 - 1) <https://sangita05.github.io/ToDoList.github.io/> [TodoList App]
 - 2) <https://sangita05.github.io/Portfolio.github.io/> [Portfolio]
- Build a Blog(South Africa Visit Places) using RESTful Route, Node Js, Express Js, MongoDB
- Build YelpCamp App using GET, POST methods, Authentication, and Deploying App using Heroku
- Making React Monsters Application using Components, Props, state using function and class with this keyword and using tools visual studio code -
 - 1) <https://github.com/sangita05/Monsters-rolodex.github.io> [Monster App]

SEP 2018 - JUN 2019

MVP STUDIO, AUCKLAND - Junior Software Developer

MVP Studio is a hire talented IT People and trained for the job. As a Software Developer, I work on their Property Management platform in an Agile environment. My daily responsibilities include:

- Participating in daily stand up meetings, led by our Scrum Master
- Participated in the entire development cycle includes gathered requirements for the creation of new tools, developed, tested and deployed the web application locally
- Create CRUD (ASP.NET Core MVC) applications and worked on designing and developing sides, solved bugs and help to team members
- Designed and built web application tools using ASP.Net MVC, Bootstrap, Semantic UI, Javascript, JQuery, JSON, AJAX, Knockout, ADO.Net and SQL for the customer to optimize their playing technique
- Participating in Product demos
- Worked on multiple projects simultaneously
- Troubleshoot and resolve bugs in .Net MVC application to ensure optimal development environment
- Carried out an optimization of the SQL Stored Procedures in MS SQL server to reduce batch queuing and processing time
- Worked on Team Foundation Server(TFS) for project management with agile methodology
- Facilitating release of software upgrades
- Participating in presentation with learning new technologies and perform as a commentator or time taker

JUN 2018 - SEP 2019

INDUSTRY CONNECT, AUCKLAND - IT Intern

At Industry Connect, I participated in an IT internship, during which I was a part of their software engineering departments. My daily activities included:

- Shadowing senior team members to get a feel for their day-to-day responsibilities
- Taking on small software development projects then presenting my work to the leadership team
- Assisting with process improvements, making suggestions on workflow changes where needed
- Participating in weekly meetings and presentation with the entire internship team and seniors
- Designed and built web application tools using ASP.Net MVC, Bootstrap, Semantic UI, Javascript, JQuery, JSON, Knockout, ADO.Net and SQL for the customer to optimize their playing technique
- Maintenance activity support - Pre-check and Post-check
- .NET job-ready developer program and worked on multi-basic Projects like CRUD applications
- Key's Onboarding - [<https://github.com/sangita05/KeysOnboardingTask>]
- MVC Movie Demo - [<https://github.com/sangita05/MvcMovieDemo>]

AUG 2013 - DEC 2015

PULPS TECHNOLOGY, Web Developer

Pulps Technology is an IT company in India, Build web app - [Online Examination System] called First E Class, I was a part of the school management module.

- Participated in an entire development cycle includes gathered requirements for the creation of new tools, developed, tested and deployed the web application locally.
- Designed and Create Website tools using PHP, phpMyAdmin and SQL for the customer to optimize their playing technique.
- Worked on multiple projects simultaneously
- Troubleshoot and resolved bugs in the website code to ensure optimal development environment
- Re-Engineered SQL & SSRS packages to handle millions of records resulting in decreased data processing time by 14%.
- Carried out an optimization of the SQL Stored Procedures in the MSSQL server to reduce batch queuing and processing time.
- Worked on Team Foundation Server(TFS) for project management with agile methodology.
- Responsible for developing and designing part and work in a team with four members
- Create new task like online attendance, event messages, chat with a parent

CERTIFICATION

Industry Connect Expert Certificate (Software Developer)	[Certificate]	Jan 2019
Udemy Online Course Certificate (Web Developer Bootcamp)	[Certificate]	Oct 2019
MongoDB Basics (MongoDB University Online)	[Certificate]	Oct 2019

EDUCATION

JUN 2010 - APR 2013

GUJARAT TECHNOLOGICAL UNIVERSITY

B.TECH - Computer Science and Engineering
